TECHNICAL SKILLS

Laravel · Business Analyst · PHP · Javascript · React.Js · React Native · Node.Js

Java · Android · Typescript · Firebase · SQLite · MYSQL · SQL Server · C#

Video Editing · Python · Blockchain · UI/UX · WordPress · SEO · Graphics Designing

SUMMARY

With over 9 years of experience as a full stack web and mobile app developer, I am skilled in both front-end and back-end technologies, including PHP Laravel, JavaScript, React.js, React Native, Node.js, and MySQL. My experience has allowed me to work on various projects for different industries, such as e-commerce, healthcare, finance, education, and more.

I have a deep understanding of development frameworks and methodologies, which enables me to work on the entire software development life cycle, from project planning and requirements gathering to development, testing, and deployment. I am also experienced in creating RESTful APIs and integrating third-party services such as payment gateways, shipping APIs, and social media APIs.

I am a quick learner and can adapt to new technologies and platforms easily, which has allowed me to work with various development frameworks such as WordPress, Shopify, WooCommerce, Magento, and more. As a team player, I enjoy collaborating with others to achieve project goals and delivering high-quality work on time and within budget.

I am passionate about staying up-to-date with the latest industry trends and continuously enhancing my skills and knowledge. My portfolio includes several successful projects, including a healthcare app that allows patients to book appointments, view their medical history, and communicate with their doctors. I also developed an e-commerce platform for a retail client that features a seamless checkout process and integrates with various payment gateways and shipping APIs.

In summary, I am a skilled and experienced full stack web and mobile app developer who is passionate about creating innovative solutions that meet unique needs. If you are looking for a developer who can help you achieve your project goals and exceed your expectations, please do not hesitate to contact me.

WORK EXPERIENCE

Full-Stack Developer / Artificial Intelligence Developer

HOLLY SHRINE OF IMAM HUSSAIN A.S / Karbala / Iraq / May 2023 – Present

At the Holy Shrine of Imam Hussain, A.S, I undertook diverse roles, serving as both a Full-Stack Developer and Artificial Intelligence Developer. My responsibilities encompassed the development of AI-based applications, analysis of client requirements, AI research, and proposing optimized solutions to enhance processes for the Holy Shrine.

- Spearheaded AI development at the Holy Shrine of Imam Hussain A.S as a Full-Stack Developer.
- Successfully managed and analyzed client requirements for AI-based applications.
- Conducted groundbreaking AI research to enhance technological capabilities.
- Proposed and implemented solutions to optimize processes, contributing to the efficiency of the Holy Shrine.

Laravel Developer / Business Analyst

BLUE MARBLE / Karbala / Iraq / Dec 2023 – Present

At Blue Marble, I fulfilled roles as a Laravel Developer, AI Developer, Team Leader, and Business Analyst. I am responsible for developing and maintaining web applications, overseeing teams, and analyzing client requirements to streamline business processes for clients across various industries.

- Proficiently served as a Laravel and AI Developer at Blue Marble.
- Led teams to develop and maintain cutting-edge web and PWA applications.
- Conducted detailed analysis of client requirements to optimize business processes. Successfully contributed to streamlined and efficient solutions for clients across diverse industries.

Laravel Developer / Project Manager

AMCO IT SYSTEMS/ Lahore / Pakistan / March 2021 – May 2022

I served as a Laravel Developer, React Native Developer, Team Leader, and Business Analyst at AMCO IT Systems. I developed and maintained web and mobile applications, managed teams, and analyzed client requirements to optimize business processes for clients from diverse industries.

- Developed and maintained web applications using PHP Laravel
- Developed cross-platform mobile applications for iOS and Android using React Native
- Managed and mentored a team of developers to ensure timely delivery of projects
- Analyzed client requirements, proposed solutions, and optimized business processes for clients from diverse industries

Laravel Developer / Business Analyst / Project Manager

ZEOEL SOFTWARE SOLUTIONS / Multan / Pakistan / June 2019 – March 2021

I worked as a Laravel Developer, Project Manager, and Business Analyst at ZEOEL Software Solutions. I developed web applications, managed projects, and analyzed client requirements to optimize business processes for clients from diverse industries.

- Developed web applications using PHP Laravel, ensuring scalability and maintainability of the codebase
- Managed the project lifecycle, including scope definition, resource allocation, progress tracking, and risk management
- Analyzed client requirements, proposed solutions, and optimized business processes to improve overall effectiveness of client projects
- Worked on projects for clients in various industries, gaining valuable experience in both technical and business domains.

Web & Mobile App Developer / Digital Marketer / CTO / Co-Founder

FRESHLAY FOODS PVT LTD / Multan / Pakistan / Feb 2019 – Feb 2021

Freshlay is a Startup that solves the issues of grocery delivery in Pakistan. The idea is innovative and has the potential to become a billionaire company. That's why I join the crew as a Co-Founder, CTO, Digital Marketer, Web & Mobile App Developer. Followings are my duty task at Freshlay.

- Worked on multiple tasks involving front-end, back-end, and mobile app development.
- Collaborated with cross-functional teams to design, develop, test, and deploy high-quality applications.
- Managing digital marketing, analyzing UI/UX, and developing web and APIs with Node.js, Express.js, MongoDB, Laravel and SQL.
- Designed and implemented complex front-end features using React, Redux, and Material-UI.
- Created and maintained mobile applications using React Native.
- Implemented secure payment processing using Stripe, Jazz Cash, USDT and PayPal.
- Improved website speed and performance using caching, CDN, and other optimization techniques.
- Participated in code reviews and contributed to improving development processes and best practices.

Laravel Developer / Co-Founder / Business Analyst

THE PROFEXO / Lahore / Pakistan / July 2018 – June 2020

At Profexo IT Solutions, I worked as a Senior Web Developer, Project Manager, and Co-founder. We delivered over 100 projects for clients locally and internationally with high-quality code and timely delivery.

- Designed and implemented custom web applications using various technologies including PHP, Laravel, JavaScript, and MySQL
- Conducted detailed project analysis and requirement gathering to ensure projects met client specifications and exceeded expectations
- Coordinated project timelines, budgets, and resources to ensure projects were delivered on time and within budget
- Managed and mentored a team of developers, providing guidance and training to improve their technical skills and performance
- Collaborated with cross-functional teams including designers, project managers, and QA analysts to deliver high-quality applications
- Contributed to the development of best practices and coding standards to ensure consistent and maintainable code across projects
- Established strong relationships with clients, delivering outstanding customer service and building long-term partnerships.

Lecturer of Computer Science

UNIVERSITY OF CENTRAL PUNJAB / Multan / Pakistan / Feb 2017 – March 2020

As a lecturer and trainer at UCP Multan, I had the opportunity to share my knowledge of computer science and software development with students. I provided training and guidance to help students develop their skills in this field. Working under the guidance of Sir Naseeb Ud Deen, I helped prepare students for careers in the software industry and beyond.

- Taught computer science subjects at UCP Multan
- Provided software development training to students
- Assisted in preparing students for careers in the software industry
- Worked under the guidance of Sir Naseeb Ud Deen

Lecturer and Trainer of Computer Science

APTECH COMPUTER EDUCATION / Multan / Pakistan / March 2016 – Jan 2017

As a skilled developer, I was invited by APTECH, a multinational tech education institute, to train their students. I shared my knowledge and expertise in software development to help aspiring developers in their journey to become professionals in the field.

- Conducted computer science and software development training for APTECH students.
- Shared industry insights and best practices with students.
- Developed course content and assessments.
- Received positive feedback from students and management for my teaching style and knowledge sharing.

Desktop App Developer (C#)

SOFTWARE TECHNOLOGIES / Multan / Pakistan / March 2014 – Feb 2016

Worked as a C# Developer at Software Technologies, a local Multan software house, while pursuing my degree on weekends. Gained knowledge of design patterns and development aesthetics working on Dot Net applications specific to C# WinForms desktop applications.

- Worked as a C# developer in a local software house, Software Technologies.
- Gained experience in developing C# WinForms desktop applications and learned design patterns.
- Worked part-time while pursuing a degree on weekends.
- Developed skills in software development aesthetics and problem-solving.

Cellphone Software Technician

ABBAS MOBILES REPAIRING CENTER / Karachi, Multan / Aug 2005 – March 2014

As a cellphone software technician at Abbas Mobiles, I gained a wealth of knowledge in software repair by working closely with my brother, who was an expert in hardware. I learned from my experiences in Karachi's mobile phone market and began working in our shop, repairing software problems for customers. While juggling my school classes in the mornings, I spent afternoons and evenings at the shop, gaining nine years of valuable experience in the field.

- Worked as a cellphone software technician at Abbas Mobiles, owned by my brother.
- Gained knowledge from Karachi Mobile phone market and started working on our shop.
- Repaired cellphone software problems alongside attending school classes in the morning.
- Worked in this field for 9 years, gaining valuable experience in software troubleshooting and repair.

E D U C A T I O N

MPhil Computer Science (3.87 CGPA) (TOPPER IN University)

INSTITUTE OF SOUTHERN PUNJAB/ Multan / 2017 – 2019

As a programmer, I always felt the need to research more and delve deeper into the world of programming. That's why I decided to pursue an MPhil degree, which would allow me to conduct research and develop innovative ideas. This degree program provided me with a great opportunity to enhance my skills in research and development, and allowed me to become a more analytical and critical thinker. With my newly developed skills, I was able to explore new frontiers in programming, and create new and exciting products that would not have been possible without this research-based approach.

Master of Computer Science (3.83 CGPA) (Gold Medalist)

INSTITUTE OF SOUTHERN PUNJAB/ Multan / 2014 – 2016

During my time at university, I had a truly transformative experience. The environment was conducive to learning and growth, with a strong emphasis on providing students with the tools they need to succeed. The manageable study plan allowed me to balance my academics and extracurricular activities, and the faculty was knowledgeable and approachable, always willing to lend a helping hand. Additionally, the personality development centers were a unique resource that helped me build confidence in myself and my abilities. Thanks to the education I received and the support of my teachers, I am now able to serve humanity with my skills and knowledge.

Bachelors in Computer Science

GOVT SCIENCE COLLEGE/ Multan / 2012 – 2014

This college experience was transformative, teaching me valuable skills and launching me on a rewarding journey in programming.
